PROFESSIONAL SUMMARY

MCA candidate and front-end developer with strong foundations in Java, JavaScript, and React, currently working as a Creative Frontend Developer Intern building animated digital invitation websites. Experienced in designing responsive, user-centric web applications, cross-browser compatibility, and performance optimization. Proficient in **JavaScript, React, Tailwind CSS, Bootstrap, and Framer Motion**. Skilled in debugging, clean code practices, and collaborating with design and development teams to deliver seamless, visually engaging digital experiences.

EDUCATION

Master of Computer Application (MCA) | Amity University | Patna, India • CGPA: 8.5/10 — 2024 – 2026

Bachelor of Computer Application (BCA) | M.S. College | Motihari, India • Percentage: 80.40% — 2019 – 2023

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C, HTML, CSS, Python
Frameworks & Libraries: React, Tailwind CSS, Framer Motion (Animation), Bootstrap
Developer Tools: Git, GitHub, VS Code, Eclipse, Vercel (Deployment)
Database Technologies: MySQL, Database Design, Schema Optimization
Core Competencies: Data Structures & Algorithms, OOPs, DBMS, Agile Methodologies, Website Performance Optimization

EXPERIENCE

Creative Frontend Developer Intern | Utsavy | Jaipur, India — Jul 2026 – Present

- Building the **frontend of digital invitation websites** for weddings, anniversaries, engagements, and birthdays using **React, JavaScript, and Tailwind CSS**.
- Creating smooth, engaging **animations and page transitions with Framer Motion** to give each invitation a polished, memorable feel.
- Developed reusable, responsive React components using Tailwind CSS and Framer Motion, ensuring consistent layouts and fast loading across 10+ devices and themes.

React Developer Intern | OpeBo Industries Ltd — Jan 2026 – Apr 2026

- Developed **reusable, responsive React components** following UI/UX best practices and OOP principles; ensured cross-browser compatibility across Chrome, Firefox, and Edge.
- Collaborated with the design team to implement **pixel-perfect, user-centric interfaces**, translating Figma mockups into clean, accessible React, JavaScript, and HTML/CSS code.
- Identified and resolved **UI bugs through systematic debugging** using browser DevTools, improving interface consistency and reducing reported issues by 30%.
- Participated in sprint planning, met project deadlines, and documented component specifications for the engineering team.

PROJECTS

CanvasPlay | HTML5 Canvas, JavaScript, HTML, CSS — Live Demo | GitHub

- Built and deployed (Vercel) an **interactive browser-based drawing app** with pen and eraser tools, square-shape drawing, adjustable brush color and size, full-screen cleanup, and one-click **image download**.
- Handled real-time canvas rendering and mouse-event logic in vanilla JavaScript, with a clean, intuitive toolbar UI styled in CSS.

Meal Finder Application | Java, JavaScript, React, MySQL, CSS, HTML — GitHub

- Engineered a **full-stack, responsive** meal search application using React and MySQL, achieving 30% improvement in data retrieval efficiency through optimized database queries and indexing strategies.
- Designed a user-friendly interface applying UI/UX principles, including intuitive navigation, consistent layout, and accessible components.

ACHIEVEMENTS & LEADERSHIP

- Certificate of participation in HP Power Lab 2.0 (Nov 2025).
- Secured 41st position among 500+ participants in Code Champ Programming Competition by optimizing code and reducing runtime complexity by 35%.
- Top 5% Rank, Cyberanya Project Competition – recognized as the youngest participant; gained significant experience in competitive product development.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Full Stack Web Development Program | Apna College — Ongoing

Master DSA with Java | Coding Blocks — July 2025

TCS Youth Employability Program (YEP) | Tata Consultancy Services — 2023
